PROFESSIONAL SUMMMARY

Motivated Quality Control professional offering 1.9+ years of progressive experience in both manual and automation testing of web-based applications. Skilled in conducting Black Box, Functional, Regression, and Database testing manually, while also proficient in developing and executing automated test scripts using Selenium WebDriver, TestNG, and other automation tools. Extensive experience in developing Keyword-driven automation framework using Selenium WebDriver, Log4j, Page Object, and Extent Reports. Takes a researched approach to assessing application effectiveness, ensuring high-quality deliverables.

EXPERIENCE

ASSOCIATE TEST ENGINEER

VITA Technology | Karimnagar

AUG/2022 - PRESENT

- Currently working as an Associate Test Engineer at VITA Technology, specialising in both manual and automation testing to ensure the quality and efficiency of software products.
- Participate in test planning meetings and contribute to the creation of test plans and schedules.
- Conducted analysis of user stories, requirements, and acceptance criteria to identify test scenarios and prioritise automation efforts.
- Design, develop, and execute test cases, test scenarios, and test scripts based on project requirements and specifications.
- Perform functional, regression testing as needed. Utilise testing techniques such as boundary value analysis, equivalence partitioning, and exploratory testing.
- Develop and maintain automated test scripts using Selenium WebDriver automation tool and TestNG framework following the Page Object Model POM design pattern to enhance test script maintainability and re-usability.
- Execute automated tests and analyze results to identify defects and regression issues.
- Identify, report, and track defects using defect tracking tool JIRA.
- Create and maintain test documentation, including test cases, test scripts, test reports.

JAVA DEVELOPER TRAINEE

DruCare Pvt, Ltd | Hyderabad

DEC/2021- APR/2022

- Interned as a Trainee Java Developer specialising in Spring Boot at DruCare Pvt. Ltd. from December 2021 to April 2022.
- Gained hands-on experience in software development methodologies and practices.
- Primarily engaged in support tasks, actively contributing to API testing and code review processes using Postman.
- This experience allowed me to develop a strong understanding of API functionality and quality assurance practices, laying a foundation for my career passion in software Testing.

- Additionally, my involvement in code review processes enabled me to gain insights into best practices and quality standards within the development life cycle.
